

UIDAI Signs R&D Agreement with Indian Statistical Institute (ISI) to Further Boost Aadhaar Robustness, Security and Reliability Through Data-Driven Innovations

UIDAI Signs Agreement With Indian Statistical Institute To Strengthen Aadhaar Security And Reliability

The Unique Identification Authority of India (UIDAI) has signed an agreement with the Indian Statistical Institute for joint research and development to further enhance the robustness, security and reliability of Aadhaar operations.

The agreement effective for a period of five years, will cover areas such as fraud and anomaly detection, development of biometric liveness detection tools, improvements in biometric matching algorithms, and other priority areas.

UIDAI Signs Five-Year R&D Deal With Indian Statistical Institute On Aadhaar

The Unique Identification Authority of India (UIDAI) on Tuesday signed an umbrella agreement with the **Indian Statistical Institute (ISI)** for joint research and development (R&D) to further enhance the robustness, security and reliability of Aadhaar operations through **data-driven innovations**.

The collaborations will cover areas such as improvements in **biometric liveness detection** tools, matching algorithms and other priority areas, UIDAI said in a statement.

आधार ने आईएसआई के साथ किया समझौता

नई दिल्ली, (पंजाब केसरी): भारतीय विशिष्ट पहचान प्राधिकरण (यूआईडीएआई) ने मंगलवार को भारतीय सांख्यिकी संस्थान (आईएसआई) के साथ संयुक्त अनुसंधान एवं विकास (आर एंड डी) के लिए एक व्यापक समझौते पर हस्ताक्षर किए, जिसका उद्देश्य डेटा-संचालित नवाचारों के माध्यम से आधार संचालन की मजबूती, सुरक्षा और विश्वसनीयता को और बढ़ाना है। यह समझौता पांच वर्षों की अवधि के लिए प्रभावी होगा और इसमें भ्रष्टाचार और विसंगतियों का पता लगाना, बायोमेट्रिक लाइवनेस डिटेक्शन टूल्स का विकास, उच्च जोखिम वाले नामांकन/अपडेट श्रेणियों की पहचान, बायोमेट्रिक मिलान एल्गोरिदम में सुधार और आपसी सहमति से तय किए गए।

इस समझौते पर यूआईडीएआई में उपमहानिदेशक (प्रौद्योगिकी केंद्र) तनुत्री देब बर्मा और भारतीय सांख्यिकी संस्थान, बंगलुरु के प्रमुख प्रोफेसर बी. एस. दया सागर ने हस्ताक्षर किए। इस अवसर पर केंद्र में यूआईडीएआई के सीईओ भुवनेश कुमार और भारत सरकार के कार्यक्रम कार्यान्वयन मंत्रालय की अतिरिक्त सचिव पूजा सिंह मंडोल भी उपस्थित रही।

UIDAI & Indian Statistical Institute Enter Landmark 5-Year R&D Partnership to Strengthen Aadhaar's Security & Reliability

New Delhi: The Unique Identification Authority of India (UIDAI) has inked a pivotal five-year research and development (R&D) agreement with the Indian Statistical Institute (ISI) aimed at boosting the robustness, security, and reliability of Aadhaar operations. This strategic collaboration marks a significant step forward in leveraging data-driven innovations to safeguard India's flagship biometric identity system.

A Collaborative Endeavor to Fortify Aadhaar

Signed on Tuesday, the umbrella agreement brings together UIDAI's operational expertise and ISI's deep statistical and data science proficiency. The partnership will focus on a wide array of priority areas including enhancing biometric liveness detection tools to prevent fraud, refining biometric matching algorithms for higher accuracy, and detecting anomalies in enrolment and update processes.

India: UIDAI, ISI Partner on Aadhaar Security and Innovation

The Unique Identification Authority of India (UIDAI) has taken a significant step toward further strengthening the Aadhaar ecosystem by signing a five-year research and development (R&D) agreement with the Indian Statistical Institute (ISI). This collaboration is designed to enhance the robustness, security and reliability of Aadhaar operations through **advanced data-driven innovations**.

The umbrella agreement, effective immediately and spanning five years, focuses on a range of critical areas, including fraud and anomaly detection, development of biometric liveness detection tools, identification of high-risk enrolment and update categories, as well as improvements to biometric matching algorithms. Both organisations will also explore other priority areas as mutually decided to ensure Aadhaar's continued evolution as a secure and citizen-centric identity platform.
