Aadhaar Mobile App Launched
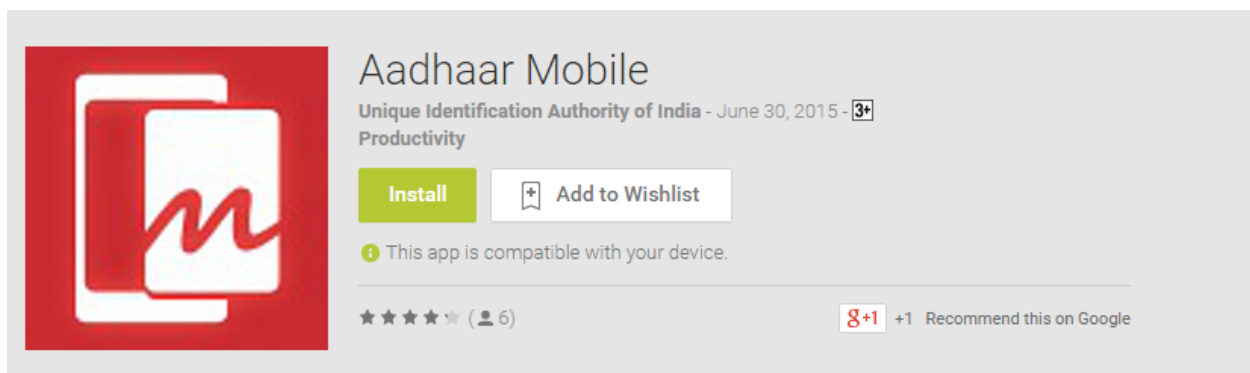

A new mobile app has been launched to enable Aadhaar holders to download their Aadhaar details on mobile phones. The app is meant to carry residents' Aadhaar number and demographics data viz. Name, Date of Birth, Gender, Address and Photograph on mobile phone.

The app is compatible with a large number of Android phones (3.0 to 5.0.1). The app may be downloaded through Google Play app store on mobile numbers registered in UIDAI's database.
