

Updated version of BHIM app launched

National Payments Corporation of India (NPCI) has launched an updated version of the Bharat Interface for Money (BHIM) on Google Play Store. This version of the app features seven new languages: Odia, Bengali, Tamil, Telugu, Malayalam, Kannada and Gujarati. Also, a 'Pay to Aadhaar number' has been introduced as a payment option wherein customer can transfer money to the Aadhaar number linked with beneficiaries' bank account. Additionally, users can now block unknown persons requesting for money by reporting spam. An improvised customer-redressal mechanism with a drop-down menu has also been introduced.
