

**Amendment II to the Request for Empanelment of Enrolling Agencies**

**Date: 03-06-2010**

Sl.No	Reference to the relevant section in the RFE Document and Page No:	Query	Response / Clarification																												
1	<p><b>Para 3.3.2 Financial Capacity – Page 12</b></p> <p><b>and</b></p> <p><b>Annexure II - Application Form – Point 9 on Net Worth – Page 44</b></p>	<p>The computation for Net Worth as per Para 3.3.2 Financial Capacity – Page 12 is correct, which states as follow:</p> <p>“The financial capacity classification of commercial organizations is based on Net Worth. Net Worth is defined as the Total assets (excluding intangible assets and accumulated losses) less Total liabilities of the organization.”</p> <p>However, this differs from the computation of Net Worth as per the calculation given in Annexure II - Application Form – Point 9 on Net Worth – Page 44.</p> <p>Could you please clarify the exact computation which UIDAI would use for computation of Net Worth?</p>	<p>The computation for Net Worth as per ‘Para 3.3.2 Financial Capacity – Page 12’ is correct. Bidders shall follow the same for their computation of Net Worth.</p> <p>UIDAI shall use the formula as given in ‘Para 3.3.2 Financial Capacity – Page 12’ for calculation of Net Worth, even in cases where bidders have submitted the Net Worth calculation in the format given in the ‘Annexure II – Application Form – Point 9’ of the original RFE released on May 11<sup>th</sup> 2010. Hence, Bidders who have already submitted their proposals to UIDAI do not have to resubmit their proposals.</p> <p>For Bidders who are yet to submit their proposal, the revised Net Worth Calculation for Annexure II - Application Form – Point 9 on Net Worth – Page 44 is as given below:</p> <table border="1" data-bbox="889 1396 1544 1835"> <thead> <tr> <th colspan="2">Assets in INR Lakhs</th> <th colspan="2">Liabilities in INR Lakhs</th> </tr> </thead> <tbody> <tr> <td>Current Assets</td> <td></td> <td>Short term liabilities</td> <td></td> </tr> <tr> <td>Fixed Assets</td> <td></td> <td>Long term liabilities</td> <td></td> </tr> <tr> <td>Long term investments</td> <td></td> <td></td> <td></td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> </tr> <tr> <td><i>Total Assets (A)</i></td> <td></td> <td><i>Total Liabilities (B)</i></td> <td></td> </tr> <tr> <td colspan="2"><b>Total Net Worth as of 31<sup>st</sup> March 2010 (A-B)</b></td> <td colspan="2"></td> </tr> </tbody> </table>	Assets in INR Lakhs		Liabilities in INR Lakhs		Current Assets		Short term liabilities		Fixed Assets		Long term liabilities		Long term investments								<i>Total Assets (A)</i>		<i>Total Liabilities (B)</i>		<b>Total Net Worth as of 31<sup>st</sup> March 2010 (A-B)</b>
