1.2 Introduction

1.2.1 UIDAI proposes to publish Diaries and Wall Calendars for the year 2018 as IEC collaterals to disseminate key information related to the Aadhaar programme and, also, as an item of utility all through the year. Various indicative themes for this year's Diary and Wall Calendar are mentioned at Section III in the Scope of Work.

1.2.2 Establishing one's identity has been a major challenge for common people just a few years ago. Substantial money running from the Consolidated Fund of India used to reach the genuine beneficiary only in the form of peanuts that s/he was not able to use purposefully, resulting in failure of transparent governance and a dishonest delivery system enhancing plight of the people at large. It was not long when residents of India have traditionally lacked a nationally acceptable unique identity, and have been using various proxy identities such as Driving License, PAN cards, EPIC voter cards, Ration cards and Passport, etc., to prove their identity and address which can be easily faked, morphed or duplicated and often misused by unscrupulous elements. The lack of easily verifiable identity has led to exclusion of genuine beneficiaries on one hand and inclusion of duplicates and fake entries in various beneficiary databases on the other.

1.2.3 This issue has been a matter of concern for the government as the absence of unique identification of residents has resulted in privation and annoyance for the poor and marginalized sections of society as a result of social and financial exclusion. Moreover, leakages in the delivery system cost huge amount to State Exchequer with less-than-due deliveries to genuine beneficiaries, and crooked elements siphoning off the benefits that are meant to be delivered to the genuine beneficiaries adversely impacting the limited resources of the Government.

1.2.4 Under Aadhaar programme, UIDAI assigns a unique portable identity to every residents of India that is verifiable online, in real time digitally anywhere, anytime. Aadhaar has bridged the ID divide that existed in the society. One of the quintessential properties of Aadhaar is its uniqueness. It is an identification that a person can carry for a life time and potentially use with any service provider, thus, fundamentally becoming a pro-poor

identification infrastructure. Nobody can have two Aadhaar numbers as the Aadhaar number is generated through a programmed process of de-duplication. Aadhaar has helped significantly in mitigating challenges of rightful identification and deletion of ghost/fake/duplicate identities.

1.2.5 Besides being a unique and robust identifier, Aadhaar acts as a permanent 'Financial Address' and is sufficient for opening instant paperless bank accounts. Aadhaar linked bank accounts enable benefits to be directly transferred to the resident and s/he can then withdraw cash from micro-ATM touch points using just her/his fingerprint and Aadhaar number.

1.2.6 Keeping in mind the Aadhaar's potentials as a tool of system's transformation and people's empowerment, the Government brought the Aadhaar Act to give it necessary legal backing and address myriad concerns from various quarters on issues of privacy and data sharing. In its incessant journey, especially during the last two and a half years, towards universal enrolment, Aadhaar has consummated the desire of more than a billion residents of India to own a unique identity that is robust and non-repudiable and empowers them to authenticate themselves on a digital platform. It is the only identity that cannot be faked on authentication and strikes a balance between 'privacy and purpose' on the information collected on residents, thereby serves the people digitally, instantly and hassle-free. Aadhaar empowers a resident with unique identification and makes him the King of the State's welfare system.

1.2.7 Aadhaar renovates the whole delivery system and ensures targeted, hassle-free, direct, portable, real time, auditable delivery of services, benefits and subsidies.

1.3 Procedure for Submission of Online Bids on CPP Portal

The bidders are required to submit soft copies of their bids electronically on the CPP Portal, using valid Digital Signature Certificates. The instructions given below are meant to assist the bidders in registering on the CPP Portal, prepare their bids in accordance with the requirements and submitting their bids online on the CPP Portal. More information useful for submitting online bids on the CPP Portal may be obtained at: <https://eprocure.gov.in/eprocure/app>.

i. Registration

- 1) Bidders are required to enroll on the e-Procurement module of the Central Public Procurement Portal (URL: <https://eprocure.gov.in/eprocure/app>) by clicking on the link "Online bidder Enrollment" on the CPP Portal which is free of charge.
- 2) As part of the enrolment process, the bidders will be required to choose a unique username and assign a password for their accounts.
- 3) Bidders are advised to register their valid email address and mobile numbers as part of the registration process. These would be used for any communication from the CPP Portal.
- 4) Upon enrolment, the bidders will be required to register their valid Digital Signature Certificate (Class II or Class III Certificates with signing key usage) issued by any Certifying Authority recognized by CCA India (e.g. Sify / TCS / nCode / eMudhra etc.), with their profile.

- 5) Only one valid DSC should be registered by a bidder. Please note that the bidders are responsible to ensure that they do not lend their DSCs to others which may lead to misuse.
- 6) Bidder then logs in to the site through the secured log-in by entering their user ID/password and the password of the DSC / e-Token.

ii. Searching for tender documents

- 1) There are various search options built in the CPP Portal, to facilitate bidders to search active tenders by several parameters. These parameters could include Tender ID, Organization Name, Location, Date, Value, etc. There is also an option of advanced search for tenders, wherein the bidders may combine a number of search parameters such as Organization Name, Form of Contract, Location, Date, Other keywords etc. to search for a tender published on the CPP Portal.
- 2) Once the bidders have selected the tenders they are interested in, they may download the required documents / tender schedules. These tenders can be moved to the respective 'My Tenders' folder. This would enable the CPP Portal to intimate the bidders through SMS / e-mail in case there is any corrigendum issued to the tender document.
- 3) The bidder should make a note of the unique Tender ID assigned to each tender, in case they want to obtain any clarification/help from the Helpdesk.

iii. Preparation of bids

- 1) Bidder should take into account any corrigendum published on the tender document before submitting their bids.
- 2) Please go through the tender advertisement and the tender document carefully to understand the documents required to be submitted as part of the bid. Please note the number of covers in which the bid documents have to be submitted, the number of documents - including the names and content of each of the document that need to be submitted. Any deviations from these may lead to rejection of the bid.
- 3) Bidder, in advance, should get ready the bid documents to be submitted as indicated in the tender document / schedule and generally, they can be in PDF / XLS formats. Bid documents may be scanned with 100 dpi with black and white option which helps in reducing size of the scanned document.
- 4) To avoid the time and effort required in uploading the same set of standard documents which are required to be submitted as a part of every bid, a provision of uploading such standard documents (e.g. PAN card copy, annual reports, auditor certificates etc.) has been provided to the bidders. Bidders can use 'My Space' or 'Other Important Documents' area available to them to upload such documents. These documents may be directly submitted from the 'My Space' area while submitting a bid, and need not be uploaded again and again. This will lead to a reduction in the time required for bid submission process.

iv. Submission of bids

- 1) Bidder should log into the site well in advance for bid submission so that they can upload the bid in time i.e. on or before the bid submission time. Bidder will be responsible for any delay due to other issues.
- 2) The bidder has to digitally sign and upload the required bid documents one by one as indicated in the tender document. **The technical samples of Diary and Calendar as per specifications given in Section III will need to be submitted at the address for**

Communication given in Clause 1.1.9 before last date and time of online submission of bids.

3) Bidder has to select the payment option as 'offline' to pay the tender fee / EMD as applicable and enter details of the instrument. **Advertising & Creative Agencies or Printer empanelled with UIDAI is not required to pay EMD.**

4) Bidder should prepare the EMD as per the instructions specified in the tender document. The original should be posted/couriered/given in person to the concerned official, latest by the last date of bid submission or as specified in the tender documents. The details of the DD/any other accepted instrument, physically sent, should tally with the details available in the scanned copy and the data entered during bid submission time. Otherwise the uploaded bid will be rejected.

5) Bidders are requested to note that they should necessarily submit their financial bids in the format provided and no other format is acceptable. If the price bid has been given as a standard BoQ format with the tender document, then the same is to be downloaded and to be filled by all the bidders. Bidders are required to download the BoQ file, open it and complete the white coloured (unprotected) cells with their respective financial quotes and other details (such as name of the bidder). No other cells should be changed. Once the details have been completed, the bidder should save it and submit it online, without changing the filename. If the BoQ file is found to be modified by the bidder, the bid will be rejected.

6) The server time (which is displayed on the bidders' dashboard) will be considered as the standard time for referencing the deadlines for submission of the bids by the bidders, opening of bids etc. The bidders should follow this time during bid submission.

7) All the documents being submitted by the bidders would be encrypted using PKI encryption techniques to ensure the secrecy of the data. The data entered cannot be viewed by unauthorized persons. The confidentiality of the bids is maintained using the secured Socket Layer 128 bit encryption technology. Data storage encryption of sensitive fields is done. Any bid document that is uploaded to the server is subjected to symmetric encryption using a system generated symmetric key. Further this key is subjected to asymmetric encryption using buyers/bid openers public keys. Overall, the uploaded tender documents become readable only after the tender opening by the authorized bid openers.

8) Upon the successful and timely submission of bids (ie after Clicking 'Freeze Bid Submission' in the portal), the portal will give a successful bid submission message & a bid summary will be displayed with the bid no. and the date & time of submission of the bid with all other relevant details.

10) The bid summary has to be printed and kept as an acknowledgement of the submission of the bid. This acknowledgement may be used as an entry pass for any bid opening meetings.

v. Assistance to bidders

1) Any queries relating to the tender document and the terms and conditions contained therein should be addressed to the Tender Inviting Authority for a tender or the relevant contact person indicated in the tender.

2) Any queries relating to the process of online bid submission or queries relating to CPP Portal in general may be directed to the 24x7 CPP Portal Helpdesk. The contact number for the helpdesk is 1800 3070 2232 or 01204001002/5.

| 2.1.7. Electronic Reverse Auction (ERA) | <ol style="list-style-type: none"> 1. After opening of the commercial bids, reverse auction process (RAP) will be done for the bidders who are eligible to participate in the e-auction as per the scheduled date and time to be intimated later. 2. After opening of the commercial bids, the lowest NPV quoted by the bidders will become the auction start price for auction and the participant bidders have to quote below the auction price in the auction. 3. The Bidder shall bid lower than the opening price in multiples of the decrement value, but a Bidder must always bid lower than the Lowest Bid. 4. The auction will be done on NPV (to be entered by bidder) which will be derived based upon Cost of Printing of 10,000 Calendars (inclusive of dispatch costs) and Cost of Printing of 10,000 Diaries (inclusive of dispatch costs) as mentioned in Section III Scope of Work. It is inclusive of any taxes. 5. Only one bidder shall be at a particular position / rank, which means only one L1. 6. The minimum decrement value will be Rs 10,000/- (Rs Ten Thousand only) from the start bid price. The reduction shall have to be made as per decrement value or in multiple thereof. 7. The Bidder will be able to view the following on his screen along with the necessary fields: i) Opening Price. ii) Leading Bid in the Auction, i.e., the lowest bid. iii) Bid placed by him. At no point of time will any bidder see the names of other bidders, or the prices of bidders other than the lowest bid. 8. A bidder can continue to revise his bid till the auction ends. However, the Bidder cannot quote/Bid equal to the Leading / Lowest Bid. He must always quote lower than the Leading/Lowest Bid. 9. The evaluation criteria is based on Price alone in auction. The Bidder who quotes the lowest evaluated Price (NPV) is determined as the lowest bidder. 10. System protects bid and bidder information till auction gets over and displays current L1 price to the bidder. 11. Initial period of reverse auction will be two hours in the slot of 10 minutes. There will be auto extensions of time every time by ten minutes in case of any reduction recorded in the last ten minutes. The reverse auction will come to close only when there is no further reduction recorded in the last ten minutes slot. 12. The log details of the entire reverse auction process will be generated by the system once the process of reverse auction is completed. 13. If a bidder does not submit his bid in the Reverse Auction, the price quoted by him in the price bid shall be considered as the valid price of that bidder. The status of the bidder (L1, L2 etc) shall be evaluated considering either the bid price submitted in Reverse auction or the Price quoted in the price bid, whichever is lower. 14. Since, reverse auction is a sequel to e-tender, the process of finalizing the tender upon completion of reverse auction will be same as the tender process without reverse auction. |

15. The bid history shall reflect only the NPV exclusive of taxes. The NPV will not be same for two bidders even if any bidder makes such an attempt.
16. Only the chronologically last price bid submitted by the bidder till the end of the auction shall be considered as the valid price bid of that bidder. Any bid submitted earlier by the bidder prior to submission of his last bid will not be considered as the valid price bid.
17. Server time shall be the basis of Start time & Closing time for bidding and shall be binding for all. This would be visible to all concerned.
18. All electronic bids submitted during the reverse auction process shall be legally binding on the bidder. The chronologically last bid submitted by the bidder till the end of the auction will be considered as the valid price bid offered by that bidder and acceptance of the same by UIDAI will form a binding contract between UIDAI and the bidder for entering into a contract.
19. Conditional discounts shall not be considered. If a bidder offers a discount unilaterally after submission of bid, the discount shall not be considered for evaluation of offers but shall be availed if order is placed on such tenderer.
20. If the lowest price received during reverse auction is unreasonable or it is unacceptable on ground of being too high compared with estimated price, the UIDAI management reserves right to seek justification of the price from lowest bidder. If the price is not considered reasonable, management may not accept such bid and go for another tender process.
21. In case of disruption of service at the service provider's end while the RAP is online, due to any technical snag or otherwise attributable to the system failure at the server end, the RAP process will start all over again. In such a situation, the last recorded lowest price of prematurely ended RAP, will be the 'Start Bid' price for the restarted RAP. The prices quoted in the prematurely ended RAP will be binding on all the bidders for consideration, if the restarted RAP does not trigger within the stipulated time.
22. However, if Reverse Auction does not lead to any bid, UIDAI shall reserve the right to award the job based on the lowest prices quoted in online commercial bid.
23. The successful bidder needs to submit the revised BoQ in line with lowest NPV quoted by him in reverse auction. The ratio of percentage decrease in cost of each component (both Cost of Printing of 10,000 Calendars inclusive of dispatch costs and Cost of Printing of 10,000 Diaries inclusive of dispatch costs) shall be same as the overall percentage reduction in the NPV originally quoted by bidder and final L1 NPV quoted by bidder. It is as explained below
- Example ó
- There are 3 bidders having following NPV from their commercial bid

| S No. | Bidder Name | NPV in Rs. Lakh (inclusive of Taxes) |
|-------|-------------|--------------------------------------|
|-------|-------------|--------------------------------------|

| | | |
|---|----|----------------------------------|
| 1 | A1 | 10,00,000.00 (i.e. Rs 10 lakhs) |
| 2 | A2 | 12,00,000.00 (i.e. Rs 12 lakhs) |
| 3 | A3 | 14,00,000.00 (i.e. Rs 14 lakhs) |

The auction start price will be price quoted by bidder A1 i.e. Rs 10 lakhs.

The bidder during reverse auction will decrement the price in the multiples of Rs 10,000 (Rs.10 thousand). After successful reverse auction, the NPV quoted by bidders are as below

| S No. | Bidder Name | Final NPV in Rs. Lakh (Exclusive of Taxes) |
|-------|-------------|---|
| 1 | A1 | 9,00,000.00 (i.e. Rs 10 lakhs) |
| 2 | A2 | 11,00,000.00 (i.e. Rs 12 lakhs) |
| 3 | A3 | 13,00,000.00 (i.e. Rs 14 lakhs) |

Thus Bidder A1 is winner of reverse auction. Bidder now needs to submit the revised BoQ in line with successful NPV quoted by him in the reverse auction.

Original price quoted by bidder A1 in its commercial bid is Rs.10 lakh

Thus reduction in NPV by Bidder A1 is $(10,00,000 - 9,00,000) / 10,00,000 * 100$ i.e 10%. The same percentage deduction will be done on every component mentioned in the BoQ for deriving final price for each component.

24. The detailed Break-up of offered cost, provided by the bidder shall be considered and order, if placed, shall be with the same break-up of prices. The bidder(s) after reverse auction will be responsible to ensure that the rate as per the breakup of prices provided by him after the reverse auction and total value offered by him in the reverse auction are in same proportion. The bidder will not be allowed to increase the rate of any equipment while submitting the breakup. While giving the break up, the bidder will have to consider same rate of taxes and duties as quoted while submitting the commercial bid.
