Vendor Consultation Workshops: Selection of Manage Service Provider for UIDAI

Background

UIDAI ecosystem has evolved overtime and with the enrolments reaching more than 120 crores and the notification of Aadhaar Act 2016, Authentication has become the critical function in UIDAI. The Authentication services of UIDAI are being widely used by various organizations and may rise substantially given its benefit. With enrolment nearing saturation in adults, focus has gradually shifted to child enrolment and managing updates to ensure currency of the Aadhaar Database. UIDAI is going through an evolution phase where UIDAI services may be utilized in various manners that may not have been envisaged at the inception of UIDAI. Considering all the above evolving changes in UIDAI and the ending of contract with the current MSP in August 2019, UIDAI is planning to on board new MSP ensuring alignment with the new vision.

For the market sounding exercise, UIDAI is planning to organise series of vendor consultation workshops. This workshop will be an opportunity for all interested parties to find out more about the UIDAI, the requirements and contribute to discussions regarding the finalisation of the specification and the procurement strategy. At the consultation workshop, UIDAI may engage with potential bidders in order to understand the technology details, capacity, and capability of the firms to meet the procurement requirements.

Workshop 1: Industry consultation workshop with potential bidders (OEMs)

Workshop Dates

- 18th July and 1st August
