The test structure of the UIDAI tests has changed. As per the new test structure there are only 3 modules viz;

Modules	Maximum marks	No of Questions in Module
Basics Knowledge of UIDAI and Aadhaar	29	10
Demographic data entry	95	30
Biometric data capture	110	35
Total	234	75

The duration of the tests is 105 minutes.

The candidates are not required to choose a role (of operator or supervisor) during the registration process. The registration screen shall show the default entry as "operator/supervisor". Any candidate that obtains 117 or more marks shall get certified as supervisor, whereas the ones getting 93 or more (but less than 117) shall be certified as operator. Candidates securing less than 93 marks shall be declared fail and such candidates will have to apply for retest and will have to write all the modules. The role of Master Trainer and Tech Support has been withdrawn thus no tests for the roles of Master Trainers and Tech Support are held.
